Deer use urine to spread scent, which is a crucial method of communication driving their behavior. Addiction Haze Aerosols provide a proven method for dispersing deer urine into your hunting area to draw in deer by stimulating their scent receptors.

**HAZETM AEROSOL DEER URINE**

Portable sized cans • Releases scent particles that attach to vegetation and travel through the air to attract deer from a distance

**HAZETM RUB STICKZ**

Real deer urine • Instantly draw in deer from long range • Won’t spill or leak • Will last two years after opening • Solid state allows you to mix urine on desired surface such as leaves, leaves tree or ground

**DEER DIP INFUSED GEL PELLETS**

2 oz

Perfect pocket size for easy carry • Sticks to ground or tree limbs • Reactives when wet

Place on a stump, under your stand, or in a scrape!

**DEER DIP SCENTED WICKS**

5 pack

Biodegradable • Use one per hunt • Fast and easy alternative to traditional scent wicks
